

ATRIUMPIHA JÄTKÄSAARI

New Liberta 500 Rheinzink envelopes the Atriumpiha property in Jätkäsaari

In 2013, Pohjola rakennus Oy, KSV together with the Lutheran Church of Helsinki organized an architectural competition that was won by Architects Viiri-Ylinenpää. Liberta 500 Rheinzink was selected for the exterior walls and Lamella Vertical 70 for the balconies project from Ruukki's expanded material portfolio. Installations were provided by Runeri Oy.
