

Roofs

Product description

Finnera™ TS52-330-1140

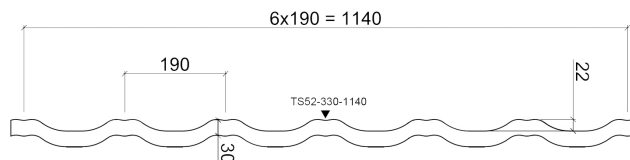

Finnera's new and innovative design makes your steel roof not only beautiful but also extremely durable and practical. The revolutionary front-edge folding within the product maximizes weather resilience and enables an admirable seamless roof finish, even with modular sheet format. This means you get top quality in a fully standardized stock-ready package, making your whole roofing project as easy and fluent as possible. You have less to worry about, that is.

Finnera suits all kinds of roof construction needs. It is sold in installation-ready components straight from the warehouse, which makes your roofing project easier and faster. Finnera adapts to all roof shapes and sizes.

Product applications

- detached houses
- terraced houses
- residential multi-storey buildings
- recreational dwelling

Ruukki is a metal expert you can rely on all the way, whenever you need metal based materials, components, systems or total solutions. We constantly develop our product range and operating models to match your needs.
